

Mayo Clinic COVID-19: Expert Insights and Strategies Online CME

Ocular Personal Protective Equipment, and Respiratory Personal Protective Equipment

Recorded 08/27/2020

Two videos: Ocular is 10 minutes, 30 seconds; Respiratory is 25 minutes, 35 seconds

Activity Description

[Brittany E. Howard, M.D.](#), Chair of Facial Plastics and Reconstructive Surgery within the Department of Otolaryngology at Mayo Clinic in Arizona, discusses ocular manifestations of COVID-19, ocular transmission risk and current CDC recommendations for ocular personal protective equipment. In a separate video, Dr. Howard discusses SARS-CoV2 droplets and how they interact with aerosols in the air; recommendations for respiratory personal protection; and types of respiratory personal protective equipment as well as a cost comparison of those items.

Target Audience

Healthcare workers of all specialties who are being impacted by COVID-19, including physicians, research scientists, physician assistants, nurse practitioners, nurses, and anyone with a particular interest in prevention, treatment, and patient care.

Learning Objectives

Upon completion of this activity you will be able to:

1. Describe the difference between ocular personal protection options
2. Choose the best ocular personal protection for a given scenario
3. Explain the differences between respiratory personal protection options
4. Choose the best respiratory personal protection for a given scenario
